

EXHIBITORS

Engine Yard

CommunityOne West Exhibitor

Engine Yard provides a deployment and management solution that integrates the new generation of software frameworks with cloud computing infrastructure. With Engine Yard, Ruby and Rails software development teams get applications to market more quickly, more reliably and more predictably.

FileCatalyst

FileCatalyst provides a software which accelerates and optimizes file transfers across global networks. FileCatalyst is immune to packet loss and latency, maximizing throughput for any organization sending files.

LongJump

CommunityOne West Exhibitor

LongJump is a platform for rapidly creating and delivering business applications for managing data, streamlining collaborative processes and providing actionable analysis. This robust multitenant SaaS platform reduces the time and costs of developing and delivering secure, database-driven web applications, while also providing extensive features around security access, data analysis and visualization, and process automation. LongJump can also be installed in a data center or private cloud for secured application hosting.

Microsoft

Founded in 1975, Microsoft is the worldwide leader in software, services and Internet technologies for personal and business computing. The company offers a wide range of products and services designed to empower people through great software — any time, any place and on any device. Learn more about Microsoft at <http://www.microsoft.com>

OpTier

The best way to manage IT, from a business perspective, is via transactions. OpTier makes software for companies whose business depends on mission-critical transactions. We guarantee the quick and successful execution of end-user transactions.

Qualcomm

Qualcomm Internet Services (QIS) helps drive long-term success for the entire mobile ecosystem by providing the framework and resources for operators, device manufacturers, content providers, and developers to move together from mobile voice and data into mobile applications and experiences.

SIMagine

SIMagine is the annual worldwide Mobile Communication & Java Card Developer Contest — stimulating innovation around SIM-based services for the wireless future.
